Intro – Am  G  C  C

Am        G                       C
I see a mountain, standing in the way
Am        G                       C
A mountain of failure, a mountain of shame

Am        G                       C
There is an ocean, drowning me in fear
Am        G                       C
An ocean of worry, an ocean of tears (but)

Am        G                       F
I know you have taken me this far
Am              G F (Dm 2nd time)
So I'll rise and I'll sing of who you are

CHORUS
C                                                        F
You alone have the nations in your hands
C                                                        F
And you alone are moving mountains in these lands
Am                                                        F
And you alone know the secrets I have saved
D
And the dreams that I have chased
F                  Ab
And you alone, you are worthy of my praise

I see a picture, of all that I'll become
A picture of beauty, a picture of love

There is a vision, growing in my mind
A vision of triumph, a vision of life (for)

Bridge
F          G          Am
And now in faith we speak
G                  F   C/E       G   (Gsus)
And mountains move as we believe
