- You did or will reside in Minnesota for twelve consecutive months before becoming at least a half time student at a Minnesota school beyond high school.

The amount of a State Grant is based on financial need. The state grant formula takes into consideration the school's cost of attendance, the expected student or parent contribution and the amount of the student's Federal Pell Grant. The cost of attendance used to calculate the full-time State Grant is based on a student enrolling for 15 credits per semester and will be reduced if a student enrolls for less than 15 credits per semester.

*All awards are subject to the availability of Minnesota State funds.*

**DEADLINE** – Students applying for a Minnesota State Grant must also submit the Free Application for Federal Student Aid (FAFSA). The FAFSA must be received by the Federal Application Processing Center no later than 30 days after the start date of the first term for which a State Grant is requested.
